Allowable Subject Matter

Claims 1-16, 23-30 and 32-36 are allowed.

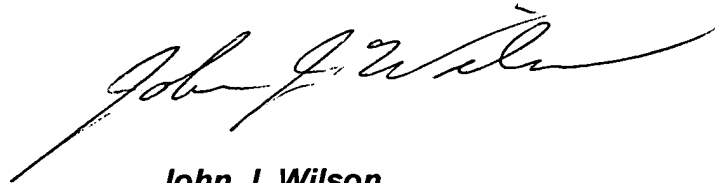

The following is an examiner's statement of reasons for allowance: The newly cited references to Lawton (1637153) and Corliss et al (3942539) show elongated flexible container means for insertion in the interdental space, however, fail to show the container filled with a flowable restorative material. The reference to Fischer (5246371) shows a container filled with a sealant, however, a sealant is a protective material not a restorative material and the container is not described a flexible. Further, applicant has invoked 35 U.S.C. 112, 6th paragraph, and Fischer nor the already cited prior art show means for inserting the first container into an interdental space between two adjacent teeth as described or equivalents.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
